Land Development Application Review and Inspection Fees

This section identifies fees charged for review and permitting in connection with applications for land development activities in Prince William County, Virginia.

Applicants should use this schedule to identify what fees are required. A review fee calculation form or a land permit calculation form must accompany each plan submission application, as identified in the Administrative Procedures Manual, to identify how the fee amount was derived. The fee calculation forms are available at the Department of Development Services at (703) 792-6830 and on the Department of Development Services web page at www.pwcva.gov/LDDDocs.

The exact amount should be used when calculating payments for land development review(s) and permit fees when submitted as part of the application process. If there is a miscalculation of fees by less than 20 percent and the plan meets quality control screening standards, the Department of Development Services will accept the plans and adjust the amount by the final submission (signature submission).

Any fees calculated on an area basis must be figured to a minimum of two decimal places. For example, if the parcel area is 8.49956 ac, do not use 8.4 ac or 8.5 ac, 8.50 ac should be used to calculate the fees.

Payment can be made using cash, checks, or credit/debit cards for all land development review(s) and permit fees. However, credit card payments for bonds and/or escrows (including lot escrows) will not be accepted (cash or check only). Checks should be made payable to 'Director of Finance, Prince William County'. Only the following credit/debit cards will be accepted for land development fees: Mastercard, Visa, and Discover. All credit/debit card transactions may be processed in person. We do accept credit/debit card payments over the phone or online. Additionally, payments can be made online by echeck.

PART I

NOTES AND ADMINISTRATIVE STANDARDS

This section is provided for clarification of the terms used in subsequent parts.

Important Terminology - The following terms and their definitions are to be applied when using this fee schedule.

1. **Application/Base Fee** - This is the fee payment that is required to be paid in full upon the initial submission of any study or plan that is subject to Department of Development Services' review or administration. In either case, the specific fee will state whether this amount is a minimum amount or is in addition to a supplemental fee.
2. **Supplemental Fee** - This fee is to be provided upon initial submission of any applicable plan. The amount due upon first submission of any plan is equal to either the applicable project variable multiplied by the item charge, or the percentage of total bond (specified in the fee schedule) multiplied by the total performance bond amount found on the plan cover sheet. Plans will not be accepted for initial submission without a completed unit price list and bond estimate, and the resultant supplemental fee calculation. Supplemental fees are calculated using costs that are normally bondable even when some or all bonds shown will not be required to be posted (as in plans for public uses and facilities).
3. **Fee Reconciliation** - As part of the pre-signature summary letter, an analysis will be performed by the Department of Development Services to determine if a change in total performance bond occurred during plan review from the figure established as part of the first submission.

If there was an increase in total performance bond during the plan review, or if the plan file indicates outstanding fees due, the Department of Development Services shall include the total balance due in the signature summary letter. That amount must be included with the signature submission, or the plan will not be accepted for signature.
4. **Unit Price List (UPL) Bond** - This amount is the total construction cost (total bond amount less the administrative and inflation cost estimate) located on the PWC standard cover sheet.
5. **Total Bond** - This amount is the total performance bond amount, equal to the total construction cost (UPL bond) plus the administrative and inflation costs, as shown on the bond estimate located on the plan cover sheet. This includes those plans for public uses and facilities, Dale Service Corporation, and Virginia American Water. (For any project involving either Dale Service Corporation or Virginia American Water, the supplemental fee and total performance bond are to be itemized between company and county bonded items.)

Note: This amount must be calculated according to this schedule and provided on the cover sheet, at the initial (i.e., first) submission of any relevant subdivision/site plan, revision, or other plan type requiring a supplemental fee.
6. **Single Family Detached (SFD) Plan Submissions** - Any residential subdivision plan involving detached residential dwelling units with any design or style characteristics
7. **Townhouse/Multifamily (TH/MF) Plan Submission** - Any residential subdivision or site plan involving attached residential dwelling units with any design or style characteristics. This includes but is not limited to duplexes, multiplexes, fee simple townhouses, condominiums (if attached), garden or other apartments, or high-rise residential development.
8. **Non Residential Subdivision Plan** - Any non residential subdivision plan involving creating parcels/lots for non residential use.

9. **Public Improvement (PI) (Infrastructure) Plan Submissions** - If an infrastructure plan (road, storm sewer, stormwater management, utilities, etc.) is proposed to a residential or nonresidential project, but is not submitted in conjunction with the site and subdivision plans for the project being served, the PI fee category identified in the fee schedule will be used. In cases where the infrastructure plan is submitted as part of a site or subdivision plan, the review fee appropriate for the site or subdivision plan will be used. Major road plans serving more than one development (such as those identified in the Comprehensive Plan) will be treated as public improvement plans.
10. **County Public Improvement Projects** - The Director of Development Services has the discretion to determine which fee(s) are charged for County Public Improvement Projects.
11. **Refunds** - The Land Development Division does not offer refunds once formal acceptance of a first submission has occurred.
12. **Revision Fee** - Any plan revision that proposes an increase and/or change of less than 25 percent of the original plan, disturbed area, building area, or number of units/lots shall use the appropriate site plan or subdivision revision fee category. If the plan's revision proposes more than a 25 percent increase or change to the original plan, the appropriate final site or subdivision fee category shall be used. (The file number designation shall have no relevance to the fee category used.)
13. **Targeted Industry Plan Review and Development Permit Fees** - The proposed development must be appropriately classified prior to plan submission in order to qualify for targeted industry status. Determination will be made in writing by the director of Economic Development upon written request of the applicant. All such approved verifications must accompany the initial plan submission.
14. **Extensions and Waivers for Final Site/Subdivision Plan Resubmission** - In the event a plan resubmission is not received by the deadline, an administrative extension shall be requested in accordance with Part II, #9 of the Fee Schedule. Should any project remain dormant for a period of time exceeding 60 days without an extension request, individual administrative extensions and/or 6-month waiver requests shall be used to bring the project current prior to resubmission.

Land Use Applications - Zoning, Rezoning and Special Use Permit Fees

This section identifies fees charged in connection with the review and processing of applications for rezoning, special use permits, and other land use applications reviewed by the Planning Office along with zoning permit fees reviewed by the Department of Development Services.

Applicants should use this schedule to identify fees associated with their respective applications. The fee schedules for rezoning and special use permit applications may also be found as part of the rezoning and special use application checklists.

The exact amount should be used when calculating payments for review fees when submitted as part of the application process. If there is a miscalculation of fees by less than 20 percent and the plan meets quality control screening standards, the Planning Office will accept the plans and adjust the amount by the final submission.

Any fees calculated on an area basis must be figured to a minimum of two decimal places. For example, if the parcel area is 8.49956 ac, use 8.50 ac to calculate the fees.

Payment can be made using cash, checks, or credit/debit cards for all Zoning Administration reviews through the Department of Development Services. The following credit/debit cards will be accepted: Mastercard, Visa, and Discover. For rezonings and special use permits, only cash and check payments will be accepted. Checks should be made payable to 'Director of Finance, Prince William County,' and be submitted as part of the application process.

Checks for land use review fees must be made payable to the 'Director of Finance, Prince William County', and submitted as part of the application process.

Refunds: A refund of 25% of the application fee shall be returned to the applicant if the application requiring a public hearing is withdrawn prior to the submission of a newspaper advertisement announcing the Planning Commission public hearing. Cases withdrawn after the advertisement will not have any funds reimbursed.
